Madden NFL 98 allows you to make global substitutions (replace an offensive or defensive player in all circumstances) or formation specific substitutions (replace a player only when certain formations are called).

PLAYING THE GAME

COIN TOSS

- The visiting team selects HEADS or TAILS when the coin is in the air.
- The winner of the toss selects KICK or RECEIVE.
- The loser of the coin toss chooses goal to defend.

THE KICKOFF

The opening kickoff can set the emotional tone for the entire game. Make sure your special teams are pumped up before you take the field and kick off.

KICKING

- Press **B** to start the power bar.
- Control Pad \leftrightarrow to aim.
- Press **B** again to kick.

To kick the ball:

1. When your team is lined up in kicking formation, press **B** to set your kicker in motion and start the power bar.
2. Control Pad \leftrightarrow to aim the kick.
3. Press **B** again to stop the power bar and kick the ball. The higher the power bar is at the time you stop it, the farther the ball will travel in the air. As soon as the ball is in the air, rush your kicking team down field as fast as possible and smash the kick returner.

To make a special teams tackle:

- To chase down the kick returner, Control Pad any direction.
- To take control of the player on your team who is closest to the ball, press **B**.
- To make a diving tackle, press **Y**.
- To get a burst of power, press **A**.

ONSIDES

Use the onside kick to attempt to quickly regain possession of the ball and get back on offense. If you're behind at the end of a game you may want to try an onside kick.

- An onside kick must travel at least ten yards. Once the ball has gone ten yards, it's "live" and the team that recovers it takes over on offense.

To attempt an onside kick:

1. From kicking formation, press **A** to call up the audible indicator.
2. Press **B/A** to set the onside kick formation. Your kicking team shifts to the right- or left-hand side of the ball.
3. To return to standard kickoff formation, press **A** to bring up the audible indicator again then press **Y**.
4. Press **B** to set the kicker in motion and start the power bar.
5. Control Pad \leftrightarrow and press **B** again immediately to stop the power bar.

RECEIVING

If you don't take control of the kick returner, he automatically gets under the ball, catches it, and begins to run up field. If the kick is deep and he catches it in the end zone, he remains in place until you run him out. If you do not run him out, the referee signals a touchback and the ball is taken out to the 20 yard line.

To control the kick returner:

- To run when you have possession of the ball, Control Pad any direction.
- To get a burst of speed, press **B**.
- To spin out of a tackle, press **A**.
- To lateral to your nearest teammate, press **L** or **R**.
- To dive for that last bit of yardage, press **Y**.

To call formations and plays:

2. Press **Y**, **B**, or **A** to select the formation in the corresponding box. A set of plays that are available from the selected formation appear.

To call a formation and play in Bluff mode:

1. From the huddle, move the highlight box to the formation you want to select.
2. Press **B** to select. The play choice appears.
3. Move the highlight box to a play you want to use as a bluff.

7. To bluff additional plays, press **Y**.
8. To exit, press **A**. You return to the field and your opponent has no idea what you are going to run.

NO HUDDLE

When the clock is running down at the end of the half or, more critically, at the end of the game, you can save time and bypass the Play Calling screen. At the end of a play, you can get right back on the line of scrimmage by running a no huddle offense.

To execute a no huddle play:

1. Immediately after the ref blows the play dead, press and hold **A**. Your team rushes back to the line of scrimmage.
2. Press **B** to snap the ball. Your team runs the same play it ran the previous down.

To run an audible from a no huddle play:

1. Immediately after the ref blows the play dead, press and hold **A**. Your team rushes back to the line of scrimmage.
2. Press **A** to call up the audible indicator.
3. Press **A**, **B**, or **Y** to select the desired audible.
(Press **X** if you decide not to run an audible.)
4. Press **B** to snap the ball. Your team runs the selected audible.

To stop the clock from a no huddle play:

1. Immediately after the ref blows the play dead, hold **Y**. Your team rushes back to the line of scrimmage.
2. Press **B** to snap the ball. The quarterback immediately throws the ball into the turf.

RUNNING PLAYS

On the Play Calling screen, rushing plays are displayed against a dark blue background. You can watch the computer execute the play or take control of the ball carrier after the hand-off. A colored star and jersey number appear beneath the ball carrier's feet to identify him.

To execute a rushing play:

1. When the offensive line is set, press **B** to snap the ball. The hand-off or toss is automatic.
2. Control Pad any direction to take control of the ball carrier and direct him through the line of scrimmage and up field.

To break tackles and shake defenders:

- To get a burst of speed and get around a tackler, press **B**.
- To spin out of a tackle, press **A**.
- To lateral to your nearest teammate, press **L**.
- To dive for those extra inches, press **Y**.
- To make the quarterback slide feet first to avoid a hard tackle when he is past the line of scrimmage, press **Y**.

PASSING PLAYS

On the Play Calling screen, passing plays are displayed against a light blue background.

Watch the receivers run their patterns on the field, then throw a pass to the open man. Once the ball is in the air, a yellow crosshair appears on the field, marking the ideal reception spot. The receiver automatically completes his pattern toward the crosshair, raises his hands for the ball, and runs upfield if he makes the catch.

You can manually control the designated receiver while the ball is still in the air to make the catch.

To execute a passing play:

1. When the offensive line is set, press **B** to snap the ball.
2. Control Pad any direction to move the quarterback and take over control of the play.
3. Press **B** to call up the passing windows. A yellow letter appears next to each eligible receiver on the field. These letters correspond to the **Y**, **B**, **A**, **L**, and **R** buttons on the Controller.

4. Press **Y**, **B**, **A**, **L**, or **R** to throw a pass to the corresponding receiver.

To control the intended receiver:

1. When the ball is in the air, press **B** to take control of the intended receiver. A color-coded star appears on the field beneath the player.
2. Control Pad any direction to guide the receiver toward the yellow crosshair.
 - To raise your hands and jump for the ball, press **X**.
 - To dive for the ball, press **Y**.

Note: When playing in the Manual Pass Catch mode, you must take control of the intended receiver or he will simply run his designated pattern.

DEFENSE

Select your defensive formations and play the same way you select offensive plays, described above.

The defense has a total of five seconds after the offense makes its play selection to break out of the huddle. A timer appears on the Play Calling screen indicating the amount of time left. If you don't choose a formation and a play in time, your team lines up to run the same play it ran the previous down.

To execute a defensive play:

1. When the defensive line is set, press **B/X** to take control of a different defensive player.
2. Control Pad any direction to move the selected player.

Note: Defensive players can be repositioned anywhere you like, but if they make contact with the offensive line before the ball is snapped or are past the line of scrimmage when the ball is snapped, an offside penalty is called.

To tackle the ball carrier and break up offensive plays:

- To take control of the player closest to the ball, press **B**.
- To jump with raised hands, press **X**.
- To dive, press **Y**.

SPECIAL TEAMS

Special Teams plays are used in punting, extra point, and field goal situations.

To select a Special Teams play on offense or defense:

1. From the Play Calling screen, Control Pad \uparrow to highlight Special Teams.
2. Press **A** to select the formation in the corresponding box. A set of plays appear that are available from the selected formation.

Note: You cannot play a game in a following week until all games in the previous week(s) have been completed.

- To return to the Season Options Menu Bar, press **A**.

PLAYOFFS

Don't worry if you don't have time to play an entire season. *Madden NFL 98* sets up a 4-round playoff tree, leading up to the Super Bowl. Your team enters the playoffs as either a wildcard team or division champion, with a tough schedule on the way to the championship.

- Select **PLAYOFFS** from the Setup screen.
- To start a new playoff, select **NEW**. Starting a new playoff erases any saved playoff or season games.
- To continue an existing season, select **CONTINUE**.

PLAYOFF OPTIONS MENU BAR

PLAYOFF SCHEDULE

View the playoff schedule, select a game to play, or let the computer play out the round. For more information, see *Weekly/Playoff Schedule* on p. 28.

PLAYOFF RULES

Set the **QUARTER LENGTH**, turn the **SALARY CAP**, **INJURY**, and **TRADING DEADLINE** on/off, and **SET SKILL** level for each season.

- When the salary cap is **ON**, each team cannot exceed 46.8 million dollars in combined player salaries when trading players or signing free agents.
- When the trading deadline is **ON**, players cannot be traded after the ninth week of the season.

INJURY REPORT

Check on the status of your injured players.

FRONT OFFICE

We've simulated NFL pro tryouts and brought them into your living room. You might still work up a sweat, but the worst physical pain you'll probably suffer is a bit of a flattened thumb.

The Front Office feature allows you to create a player at any position and see if you can successfully make it through the scouting combine.

CREATE PLAYER

To enter your name:

1. Control Pad \uparrow to scroll through the letters.
2. Press **B** to move to the next space.
3. To back up one space, press **Y**.
4. When you have entered your name, press **START** to confirm your entry and continue.
5. To Complete the Registration form, control Pad \leftrightarrow to cycle through the choices for HEIGHT, WEIGHT, TEAM, POSITION, JERSEY number, and SKIN color. When you have made each choice, press **START** to confirm your entry and continue.

OFFICIAL TRYOUT REGISTRATION

Take your newly created player through a series of grueling events designed to test his ability at the position he hopes to land. Each position has several different sets of test events. After each event you are given a scout rating ranging from 0-100. This rating is used in conjunction with a table that takes into account earlier choices of height, weight, and position, to give an actual 1—15 rating in each skill category.

PLAYERS

You must complete the events in order. The upcoming event flashes on the screen.

- To begin each event, press **START**.

40 Yard Dash

This race is your basic all-out sprint. The 40 yard dash sets the standard for gauging the speed of NFL players.

The speed of your player varies according to his height, weight, and how fast you press the buttons. For example, if you have created a behemoth offensive lineman who stands 6'6" tall and weighs 380 lbs., you're going to have a harder time getting across the finish line in a hurry.

- To run, press the **A** and **B** buttons alternately as fast as you can.

Obstacle Course

The object here is to run around the tackling dummies and make it to the finish line as quickly as you can. The trick is that you must run to the right of the red dummies and to the left of the blue dummies. You are penalized 2 seconds for running on the wrong side of a dummy.

- To run, hold **B**.
- To run to the left/right of the dummies, Control Pad \leftrightarrow .

Coach Rogers

Pay attention, son! In this drill, the coach shouts out a series of directions and expects you to have enough brains to repeat them. The first time you have to remember three directions, and each additional time, the coach adds one more direction to the sequence. As soon as you mess up the sequence, the drill is over.

- To repeat the coach's directions, Control Pad in the appropriate direction.

Passing Range Drill

Let's see what kind of an arm you've got. We'll give you a ten yard start then see how far you can wing that pigskin.

- To get a good running start, press **A** and **B** alternately as fast as possible.
- To adjust your throw angle when you reach the ten yard line, hold **X** and release it when the desired throwing angle is reached.

RB/Receiver Catch Drill

Suit up and head out onto the field. The coach wants to see what kind of hands you've got. In this drill you have ten chances to get open against some well respected defensive backs. Run any pass route you want and when you're open, call for the pass. Try and get as many yards as you can. It's pretty tough to get open and it gets even tougher. After five attempts, a second defensive back comes out to help defend you, and after eight attempts a third back comes out to really smother you.

- To start the play, press **Y**.
- To go out for a pass, Control Pad any direction.
- To call for a pass, press **B**.
- To spin, press **A**.
- To raise your hands for the catch, press **X**.

Note: If you don't call for the pass within five seconds, the QB throws automatically.

Defensive Back Drill

In this drill, nothing stands between the quarterback, the receiver and the goal line-except you. Do whatever you have to do to stop the receiver from catching the ball.

- To run, Control Pad any direction.
- To make a diving tackle, press **Y**.
- To raise your hands, press **X**.

10 Yard Fight Drill

This one's pretty straightforward. Show the coach if you're quick enough, strong enough, and have enough heart to go one-on-one, one-on-two, and one-on-three against some angry defenders and make it across the goal line. Just to make sure you don't wimp out and try to run away, you can't run outside of the hash marks or back behind the 15 yard line.

- To run, Control Pad any direction.
- To spin, press **A**.
- For a speed burst, press **B**.
- To dive, press **Y**.

Protect QB Drill

You don't want to go back to the huddle if that cranky QB is gonna yell at you. So, protect him for goodness sakes! You start out surrounded by a circle of defenders hoping to nail the quarterback. It's your job to find the one that's coming at him and stop him. Do whatever it takes to put the tackler on the ground.

- To stay with the defensive player, Control Pad any direction. For a little extra blocking power, press **A**.

Rush QB Drill

Every Defensive player's dream is to rush the QB without obstruction. But, you should have no trouble getting around one big, slow offensive lineman, right? Maybe not. You've got seven seconds to show the coach how much you like quarterbacks.

- To run toward the QB, Control Pad any direction.
- To spin around a blocker, press **A**.
- To dive, press **Y**.

Defensive 10 Yd. Fight

Here's your chance to go head on with a running back. They don't have much running room, but you still have to make an open field tackle and stop him from scoring.

- To run toward the back, Control Pad any direction.
- To dive, press **Y**.

Punt/Kick Distance Drill

Since you're trying out for one of the cushier jobs on the team, you don't have to do anything really tough, but you better be able to boot the crud out of the ball.

- To build up forward momentum, press **A** and **B** alternately as fast as possible.
- To adjust your kick angle when you reach the ten yard line, hold **X**.

Punt Accuracy Drill

You have six chances to punt the ball as close to the end zone as possible without it going into the end zone. If your kick goes out of bounds, the ball is marked where it crosses the boundary line. No points are given if the ball doesn't go past the 20 yard line or goes into the end zone.

- To set the punter and power bar in motion, press **B**.
- To aim the punt, Control Pad \leftrightarrow .
- To punt the ball, press **B** again.

Kick Accuracy Drill

Many games come down to the last field goal or extra point attempt. You'd hate to go down in history as the kicker who could have won the game but choked an easy kick instead. There's no time like the present to get out there and start kicking under pressure. You have 10 kicks: 3 each at the 25, 30, 35 yard lines and one kick from the 40 yard line.

- To set the kicker and power bar in motion, press **B**.
- To aim the kick, Control Pad \leftrightarrow .
- To kick the ball, press **B** again.

ASSIGN A NEW PLAYER

Your new player is put on the NFLPA team, and you can assign him to a team or trade him away.

- To highlight your new player, Control Pad \downarrow .
- To select the highlighted player and make a trade, press **B**.

PRACTICE EVENTS

Just to be sure you don't buckle up in front of the coach and make a fool of yourself, you can practice any of the tryout events, as many times as you like.

From the Front Office screen:

1. Highlight PRACTICE EVENTS and press **B**. The Practice Event menu bar appears.
2. Highlight an event and press **B**. The event you have chosen appears. For information on each event, see *Create Player* on p. 30.

TRADE PLAYERS

Can you believe your team traded away a key player? Do you ever find yourself wishing that you could give the owners and coaches a little advice? Well here's your chance to step in and run things the way you want to.

Note: Player rosters are up to date as of early July 1997.

- Control Pad \downarrow to highlight From and To.
- Control Pad \leftrightarrow to cycle through teams.
- Press **START** to go to the team rosters.
